DEFINITIVE DESIGN: QUALITY FIRST

CONTENTS

In a global market, in a global economy, there's a danger that companies may lose touch with their customers, become removed from what their customers are doing and fail to understand their wants and needs.

That's why Wild Country stays true to its founding ethos and is resolutely a 'climbing company, run by climbers for climbers'. We've been this way for thirty plus years and will not change. Our customers are our climbing partners. And we're lucky – we have climbing partners all around the globe.

Clarity of thought. Simplicity of execution. Definitive design. This is the mantra that shuts out the noise and guides our tight, focused range. It drives us to produce the ever lighter, more functional, technical equipment that the modern climber deserves. We are proud to give our climbing partners the very best gear available in the world today.

We listen: to climbers, to shops, to importers, to all our partners; so that when we expand our range, it's worth taking note, it's for a reason, and when we revise our range these revisions are not devised as flab or bulk but to trim, sharpen and refine.

Then when we do produce it's done with a strict adherence to core values of safety and quality which underpin all our designs. CE, UIAA, 3 Sigma, ISO 9001: 2000 - Wild Country has an exceptionally rigorous regime of product testing and traceability, this together with our best practice guarantees the highest quality control. Our standard is to constantly exceed industry norms.

We sincerely hope that our gear will be used well, used hard and pushed to the limit. We built it for that purpose, we know it can take it. You can be sure Wild Country equipment can be relied upon when failure is not an option.

It's all of this that makes us different.

It's all of this that makes us Wild Country.

## HELMETS

## HELMETS

### HELMETS

Modern climbing is all about movement, on rock, on ice or both, and across the seasons; adapting skills to surroundings and circumstances to make the most of changing conditions. And that's why last year Wild Country brought out the first helmet that could truly claim to do the same, the Alpine Shield with its modular two in one system, which has been a great success. So this year we've arrived with its pared down cousin, the Rock Lite; light with new colours a new look but the same careful and well thought out approach it's the perfect 'cragging' lid.

### NEW ROCK LITE HELMET

The essence of the Rock Lite is as a pared down rock climbers helmet that hits the market at an impressively light weight. With a pedigree borne of our research and development from last year's hot model, the Alpine Shield, it's stylish and strong and aimed at those with a pure rock agenda who want to climb clean, light and clear.

Thus the Rock Lite is a slimline in-mould EPS model, perfect for all round cragging, which has an optimal fit via quick-click volume adjustment, soft EVA pads and a super secure, quick release chin strap. Well vented for summer, abroad or at home, and with two stylish colour choices it also comes with neat touches like reflective patches for high visibility by headtorch – great for those early starts.

Bonus: the Rock Lite exclusively retains the three screw fittings that would allow for placement of 'The Shield' polycarbonate cover as used on the Alpine Shield helmet – meaning if your agenda changes, your helmet can too. And with the enhanced stonefall protection The Shield gives, the horizons widen!!

**Features:** Lightweight best in class EPS/Polycarb helmet, Quik-Click- glove friendly adjustable sizing, Adjustable EVA cushioned, head hugging inner pads, Nexus Acetal (better in low temp) quick release chin strap buckle, Smooth 16mm nylon chin strap, 4 Torch grips (acetal – better in low temps), Hood friendly sizing for winter wear, 3 Stylish colour choices, Emergency inner sticker, Free storage bag, One size. Weight: 260 grams / 9.17oz. Sizing: 53-61cm / 21-24"

CE EN 12492 / UIAA 106 / 3 Sigma rated.

Product Code: Red: 36RLR, Blue: 36RLB

### ALPINE SHIELD HELMET

The awesome **Alpine Shield** takes an innovative and stylish approach to creating the ultimate in adaptability and the perfect 'year round' helmet.

This modular design adopts a 'two-in-one' approach, combining a lightweight, in-mould EPS/Polycarbonate helmet with an exclusive 'Alpine Shield' cover that can be quickly attached to give enhanced protection.

Worn uncovered, this helmet is perfect for all round cragging; supremely light and with an optimal fit via quick-click volume adjustment, soft EVA pads and a super secure, quick release chin strap.

Worn covered, by adding the bonus Alpine Shield shell – providing extra stone and icefall protection – it goes further than any other helmet of its type can go. Meaning this fully featured model becomes a true winter lid and one of the lightest choices around.

Simple to switch around, easy to fit and wear, the Alpine Shield is the first helmet with this modular capability – so from gritstone games to winter workouts it converts from best in class to a class of its own.

**Features:** Lightweight best in class EPS/Polycarb helmet, Exclusive free extra 'Alpine Shield' polycarbonate cover (enhanced stonefall protection with cover), Simple 'coin-slot' alpine shield adjustment, Quik-Click- glove friendly adjustable sizing, Adjustable EVA cushioned, head hugging inner pads, Nexus Acetal (better in low temp) quick release chin strap buckle, Smooth 16mm nylon chin strap, 4 Torch grips (acetal – better in low temps), Hood friendly sizing for winter wear, 3 Stylish colour choices, Emergency inner sticker, Free storage bag, One size. Weight: 260gms / 9.17oz WO Shield or 420gms / 14.81 W Shield. Sizing: 53-61cm / 21-24"

CE EN 12492 / UIAA 106 / 3 Sigma rated.

Product Code: Silver: 36ALPSHLDS, Black: 36ALPSHLDBLK, Coloured: 36ALPSHLDC.

Alpine Shield Helmet

### NEW 'THE SHIELD'

Available as a separate product for the 2009/10 season, this polycarbonate cover fits both the Wild Country Alpine Shield Helmet as well as the new Rock Lite helmet. Quickly and easily attached to either, it extends the stone and icefall protection available and extends the usable seasons making either a true 4 season helmet.

Comes with full instructions, fitting tool, 3 screws and storage bag. One Size. Weight: 160gms / 5.64oz

Product Code: 36ASSET

## HELMETS

## LOCKING KARABINERS

### 360 HELMET

Durable, stylish and super safe the 360 is an exceptional polycarbonate helmet built with style and the safety credentials to blow the opposition away.

Created to act as a cross-season all rounder the 360 is a reliable and fully featured model that will be at home on first forays out to longer expeditions away. Built with safety in mind the 360's testing pedigree is its strength. Optimal shaping, optimal material use and top impact resistance mean great test results, including a best in class side impact result. This is due to Wild Country's decision to use more EPS than other helmets and to extend the EPS further down the sides and back of the lid. This makes impacts from a swinging fall safer, adding more plusses to an already secure design.

However, this strength is not a sacrifice to weight or fit and the 360 remains a lightweight choice. Internally, it adjusts via a glove friendly 'dial-system', cinches and releases simply and sits comfortably on adjustable, cushioned EVA pads.

A safety conscious go anywhere, do anything, all rounder with a strong sense of style, an excellent fit and a price tag that protects the wallet; the 360 redefines polycarbonate performance.

360 Helmet

### NEW SIZE 1

For the 2009/10 season Wild Country introduce another size in the 360. This new size is designed to cover those adults who don't fit the original 360 and should be a great fit for kids too – ideal for those first steps in a mountain environment.

The new size 1 comes in three colours Red, White and Lilac.

**Features (both models):** Lightweight best in class Polycarb/Eps helmet, Quik-Dial glove friendly adjustable sizing, Adjustable EVA cushioned, head hugging inner pads, Nexus Acetal (better in low temp) quick release chin strap buckle, Smooth 16mm nylon chin strap, 4 Torch grips (acetal – better in low temps), Hood friendly sizing for winter wear, 3 Stylish colour choices, Emergency inner sticker, Free storage bag. **Weight:** 360 grams / 12.7oz. **Sizing:** 53-61cm / 21-24". **Size 1 – Weight:** 315 grams / 11.1oz. **Sizing:** 48-56cm / 18.5-22"

CE EN 12492 / UIAA 106 / 3 Sigma rated.

**Product Code:** Size 1: 36WC360WS, 36WC360RS, 36WC360LS  
**Product Code:** Std: 36WC360W, 36WC360R, 36WC360B

# 360°

### INTRODUCTION

An expanded and expansive range of karabiners gives a screwgate or autolock for each and every occasion, from runners, to belay, to instruction. New for 2010 are our **Ion**, two new **Synergys** and a re-worked **Titan** – and importantly all of our screwgates are now Keylock giving easier access and better rope clipping at all times.

### NEON KEYLOCK SCREWGATE

No ifs no buts, and no way to ignore this, the Neon screw is one of the **worlds lightest Screwgates** and finally makes a screwgate close to being as light as many modern snaps.

Achieved using a combination of the proven I beam technology and a little lateral thinking, the Neon Screwgate gives safety a boost allowing more screwgates to be carried without a weight penalty. Add to this a smooth Keylock nose and a usable gate clearance, it makes clipping and unclipping no toil – even with gloves. And as with all the Wild Country screws the Neon's screwgate is strong enough to resist inward pressure as well adding an extra safety dimension.

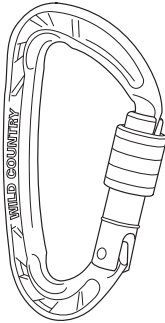

An amazing step forward and a true weight breakthrough, the Neon screw finally ditches the penalty of weight from a screwgate – and with its keylock nose it makes for safer climbing with no catch!!

**Features:** Hyperlight, I Beam back, High strength thimble, Hot forged, High gate open strength.

**Product Code:** 13NEONSG.

Neon Keylock Screwgate

### NEW ION KEYLOCK SCREWGATE

Our code name for this biner was 'Neon Big' and the Ion is exactly that – a bigger version of our mega-successful, hyperlight, Keylock screwgate biner,

The Ion is based on the same design but simply 'scaled-up' to give a bit more space creating a more all round biner. Yet by only adding 7 grams there's a minimal penalty for the extra room and the Ion stays in that hyperlight category. Strong, shapely and neat in the hand its Keylock nose guarantees an easy clip or strip and our high strength thimble provides a bonus safety boost.

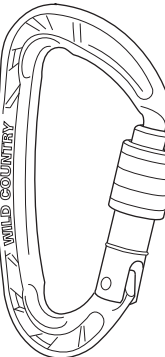

Another Wild Country cracker this biner just begs to be used on all your hardest ascents!!!

**Features:** Hyperlight, I Beam back, Hot forged, High gate open strength, High strength thimble,

**Product Code:** 13NEONSG

## LOCKING KARABINERS

## LOCKING KARABINERS

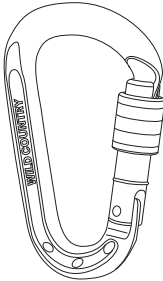

### SYNERGY LITE KEYLOCK SCREWGATE

A bestseller since its launch and a superb all rounder. Our baby HMS has proved a winner with its hot forged facelift, smoother lines and a Keylock nose for extra versatility. The rounded top stays suitable for Munter hitch if needed and the weight comes down to make it an even more attractive package. For extra security the super-safe 7075 Alloy thimble resists gate inward loading.

Synergy Lite Screwgate

### NEW SYNERGY KEYLOCK SCREWGATE

Reworked, the Synergy HMS becomes an even more functional model, making it a better belay partner, with the addition of Wild Country's Keylock nose. A keylock nose means that it's easier to get ropes in and out of the biner without 'hooking up'. This classic biner keeps the same 12mm round bar construction, keeping a smooth profile for ropes, and enabling it to be used with a Munter hitch and a wider range of knots. Solid in the hand and a generous size it's a great priced all rounder. Comes with Wild Country's high strength thimble providing extra gate-inward security.

Synergy Keylock Screwgate

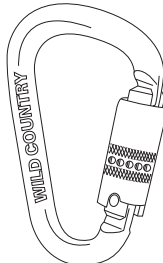

### NEW SYNERGY KEYLOCK AUTOLOCK

There are some situations where it's **absolutely** necessary to be sure your screwgate is closed - so available for the safety conscious or for more select applications comes our full Autolock version.

This has a three stage bayonet and twist mechanism that makes sure it must be deliberately opened and then when it's let go it closes and autolocks itself - meaning that there's no more worrying about accidental unlocking. As with the standard screw it uses the same 12mm round bar construction, keeping a smooth profile for ropes, and enabling it to be used with a Munter hitch and a wider range of knots. A perfect group or centre biner.

Synergy Keylock Autolock

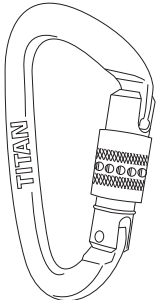

### NEW TITAN KEYLOCK SCREWGATE

Making this easy clipper even smoother and enhancing it's all around status as the best basic biner available, the original Titan gets a Keylock nose.

So in adapting the bestselling Wild Country screwgate ever we kept it simple to make this an even more effective model. And by combining our wider open D shape with a no-hook nose we have a great all rounder at a reasonable weight - and a brilliant price. Comes with Wild Country's high strength thimble, providing extra gate-inward security.

### OXYGEN SCREWGATE

A solid, beefy and super strong screwgate, the Oxygen is an adaptable all rounder that's great in a whole bunch of tight spots.

Sporting a Keylock nose as well as hot forged functionality it's a real workhorse and has a place on most racks. Add in Wild Country's high strength thimble, providing extra gate-inward security and you have a very solid krab.

ASTRO TECHWIRE

At just over an ounce per unit and with the stylish and strong 'I beam' technology, the new Astro provides an amazing platform for the Wild Country range to sit on.

Like a miniature of the original, amazing Helium, the Astro's technology combines plenty of strength with a definitive design that keeps up the downward momentum of weight loss. Small, but designed to sit perfectly in the hand, its size belies the ease of use. Built with our easy clip 'Tech-wire' wiregate and skinny, safe, hooded nose that makes it perfect for super slick clipping, it's not hard to see why it handles so well.

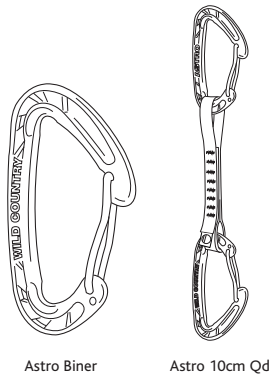

The Astro is a hyperlight, high performance biner that weighs less to give more and Wild Country's lightest biner + QD. QDs come on 10mm dyneema with Tadpole. Sets of Biners / Quickdraws available.

**Features:** Hyperlight, Techwire gate, I Beam back, Skinny hooded nose, Hot forged, High gate open strength.

**Product Code:** 13ASTROA.

3 Sigma Rated, UIAA 121, CE EN 12275, 7075 Alloy.

NITRO TECHWIRE

The Helium is an exceptional biner... everyone tells us so! It feels great in the hand, clips superbly, and is still the world's lightest true full size biner. In fact maybe the only criticism is that it's incredible patented 'no-hook' nose makes its production an expensive business.

So the Nitro is a solution to that, it's a Helium with a skinny hooded nose that's easier to produce and comes at a way better price! So you do the math... an easy clipping, full size, great handling biner at an awesome price – equals a bargain just waiting to be snapped up.

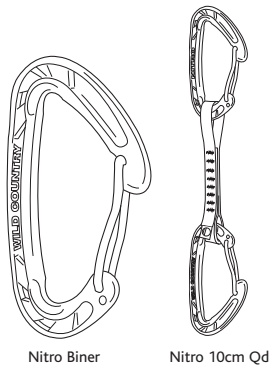

QD comes on 10mm dyneema with Tadpole. Sets of Biners /Quickdraws available.

**Features:** True full size superlight biner, Techwire gate, I Beam back, Skinny hooded nose, Hot forged, High gate open strength.

**Product Code:** 13NITROA.

## KARABINERS

## KARABINERS

### HELIUM CLEAN-WIRE

The worlds most technically advanced and lightest true full size, wiregate biner has been designed for elite climbers everywhere. The Helium's unparalleled combination of extreme lightweight, high strength and 'Clean-wire' nose make it the ultimate on-sighting biner. The Helium QD comes in three lengths and with it's 10mm Dyneema sling is probably the most advanced and lightest on-sighting draw in the world. QD comes with our Tadpole. Sets of Biners / Quickdraws available.

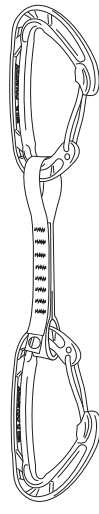

Features: Patented 'Clean-wire' nose, 'I' beam back, Hot forged, High gate open strength, Unique 'Flat-Wire' gate.

Helium Clean-wire

Helium 15cm Quickdraw (10mm Dyneema)

### XENON TECHWIRE

The full size Xenon is that mythic 'great all-rounder' biner and was designed to be lighter and stronger than most other full size biners around. With a narrow wire gate and a skinny hooded nose the Xenon clips smoothly, even in the most awkward of places, racks fantastically and is well protected – giving maximum security with the minimum of fuss and weight. QD comes with Tadpole. Sets of Biners / Quickdraws available.

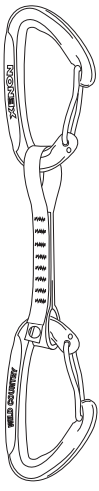

Features: Hooded gate, 'I' beam back, Hot forged, High gate open strength.

Xenon 15cm Quickdraw (10mm Dyneema)

### OXYGEN KEYLOCK

A stalwart workhorse the Keylock Oxygen is a continuing success. Lighter, more shapely and with our new Keylock nose, this is great all round biner that keeps a firm re-assuring feel for those who don't want to go too far down the anorexic wiregate route. The solid quickdraw hangs great for redpoints and projects. Comes in bent & straightgate. QD is on 12mm Dyneema and comes with our Tadpole

Features: Our strongest snapgate, Keylock nose, Hot forged, Bent and straight gate.

### WILD WIRE TECHWIRE

One of the first ever wiregates and an amazing best seller, the Wildwire is still one of the most popular; simple, light and elegant to use, it's smooth action makes clipping a joy. Wild-Wire QDs come in three lengths, are still hugely popular and make one of the best all-round 'trad' units on the market. QD comes with our Tadpole. Sets of Biners / Quickdraws available.

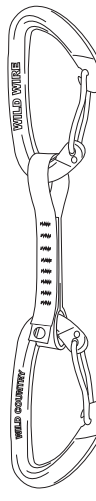

Features: 'Tech-wire' gate, Hot forged bow back, Lightweight, Open shape.

## HARNESSES

### SYNCR0 ZIPLOCK

The Syncro is a stalwart of the Wild Country range and with its quality, performance and unsurpassed adjustability has always been widely regarded as a benchmark harness.

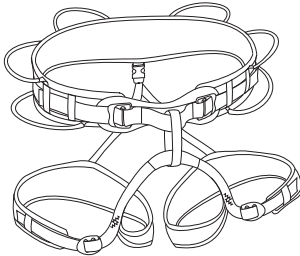

The current model, with its wide firm belt, seven gear loops and tons of cool safety features has continued the Syncro heritage as one of the best load carriers around. Add to this the classic Syncro double buckle system, giving perfect centering of the harness whatever the clothing worn and its obvious that this 'load monster' offers something that's unavailable elsewhere.

An all rounder with a unique pedigree the Syncro's slick and simple functionality makes it a great choice for winter, summer or instruction.

**Features:** Ziplock waist buckle + Ziplock leg loop buckles, 'Batwing Belt' shaping, Seven gear loops, 25kN Belay loop, Offset 15kN Haul Loop + 'Hideaway' pocket, Single point drop seat, Mesh carry bag, Alloy buckles, Colour: Orange.

### ELITE ZIPLOCK RANGE

Re-envisioned for 2009-10 to be bolder, but still beefy and brilliant Wild Country's most fully featured, stylish and comfortable models get a strong visual overhaul to keep ahead of the pack. Elite harness sales have gone from strength to strength since their launch, proving that quality and fit win through and that when there's a high class offering there's always a big audience.

### ELITE ULTRALITE ZIPLOCK

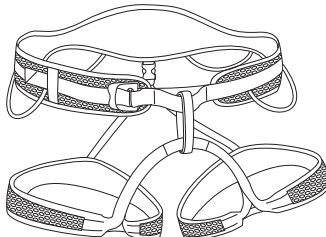

Elite Ultralite – Created to become our 'piece de resistance' for the avid sports climber or traditionalist who really wants to go lightweight it seems that the Elite Ultralite really hit the spot.

Taking a lead from the previous Elite models but slimmed and trimmed of any excess it becomes the choice for your hardest routes and redpoints. With a more radical shaping, this harness was designed for movement and sports a 'super-ergo' belt that's been carved to allow an unprecedented flex and feel. Add to this 4 gear loops, a radical 10mm dyneema belay loop, as well as a stylish finish that really stands out and its easy to see why it became the latest 'big thing'.

**Features:** 'Super-Ergo' belt, 10mm Dyneema Belay loop, 20mm Waistbelt webbing, 4 gear loops, 25kn belay loop, Wear indicator, Elasticated leg loops, Single clip off point.

### NEW ELITE ADJUSTABLE MEN'S ZIPLOCK

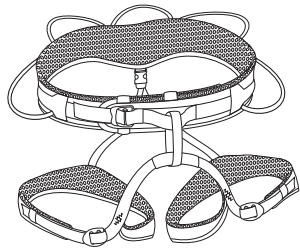

Excitingly, the Elite men's harness comes with a stunning new visual for next season, but equally importantly it retains and upgrades the flood of features that set it apart from the pack in the first place.

The clever thing about the Elite has always been how it managed to combine cutting edge safety features with an uncanny comfort and shelf appeal. And this model is no different. Remaining comfortable beyond the call of duty with its wide 'batwing' waistbelt and 'comfort-mesh' lining it also parades a multiplicity of high strength, high security additions to match any need. Fitting brilliantly, looking stunning and performing perfectly the Elite offers a great option for those looking for the best harness around.

**Features:** Ziplock waist buckle + Ziplock leg loop buckles, Exclusive 'Comfort Mesh' foam belt, 'Batwing Belt' shaping, Five gear loops, 25kN Belay loop, Offset 15kN Haul Loop + 'Hideaway' pocket, Single point drop seat, Mesh carry bag, Alloy buckles, Colour Red / Silver.

### NEW ELITE ADJUSTABLE WOMEN'S ZIPLOCK

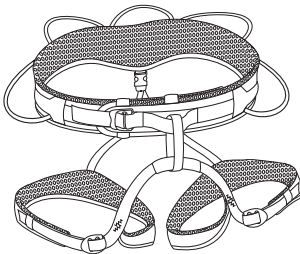

Sharper, smoother and with cleaner lines the Elite women's harness gets a stylish new look while keeping the true women's fit that has made it so popular.

So, distinct from the men's model not only in colour but in the essential shaping and sizing our 'comfort-mesh' 'batwing' belt is re-drawn to make a supportive and figure hugging fit specifically for women. A smooth, safe Ziplock waist and Ziplocks on the adjustable legs, as well as exclusive Wild Country strength and safety features make this a great multi-discipline model for women who do more: from sports, to trad to winter.

**Features:** Ziplock waist buckle + Ziplock leg loop buckles, Exclusive 'Comfort Mesh' foam belt, 'Batwing Belt' shaping, Five gear loops (XS 3), 25kN Belay loop, Offset 15kN Haul Loop + 'Hideaway' pocket, Single point drop seat, Mesh carry bag, Alloy buckles, Colour Purple / Silver

### VISION ZIPLOCK HARNESSES

The Vision's all around appeal is unmatched – so to keep up the momentum the Vision series has been both re-worked and added to for next season. A super stylish external overhaul gives the range a lighter leaner feel and the addition of two new junior models adds a depth to the potential audience. So for a confidence inspiring collection that tackles the full range of climber's wants, look no further.

### NEW VISION SPORT ZIPLOCK

Our bestseller, and although externally overhauled and with a more definitive name for the new season this remains a great value harness. So easy to fit, comfortable to wear and with new colours we think it will prove to be even more popular in this guise.

The Sport is a light, cool looking trimmed down model which uses our Ziplock buckle for the slickest, safest fastening. It comes with fixed, elasticated legs with enough 'give' to fit most shapes and sizes and the belt has our 'batwing' shape to hug in the right places.

Awesome safety features, and a high strength and high quality finish make this a great all round rig.

**Features:** Ziplock waist buckle, 'Batwing Belt' shaping, Elasticated leg loops, Four gear loops (XS 2), 25kN Belay loop, Single point drop seat, Mesh carry bag, Alloy buckles, Colour: Red / Silver.

PRODUCT	PRODUCT CODE	SIZE	COLOUR	WAIST cm	WAIST inch	LEG SIZE cm	LEG SIZE inch	WEIGHT gm/oz

3 Sigma tested, CE EN 12277 Type C, UIAA 105

### NEW VISION ADJUSTABLE MEN'S ZIPLOCK

A stunning new colourway gives the bestselling adjustable Wild Country harness, a welcome makeover, adding to its visual appeal.

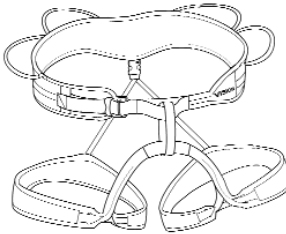

Light, lithe and very, very popular the men's model obviously keeps all the great features which made it such a success: a great fit, plenty of gear loops and high strength, safety add ons. Crossing seasons and disciplines with ease the binding loaded construction keeps weight down while the three Ziplock buckle design is safe and super adjustable.

An effective package designed to go the distance in summer and winter whether starting off or in it for the long haul.

**Features:** Ziplock waist and leg loops, 'Batwing Belt' shaping, Four gear loops, 25kN Belay loop, Single point drop seat, Mesh carry bag, Alloy buckles, Colour: Blue / Silver.

PRODUCT	PRODUCT CODE	SIZE	COLOUR	WAIST cm	WAIST inch	LEG SIZE cm	LEG SIZE inch	WEIGHT gm/oz

### NEW VISION ADJUSTABLE WOMEN'S ZIPLOCK

Cool and clean, with a brighter, lighter colourway this Vision is set to continue to be a popular choice as a cross season all rounder that women fit really well.

A longer rise and an adjusted leg loop to waistbelt ratio create a better fit, making this not just a different shade from the men's but a different shape and a true women's harness. Built to deliver a flexible and feature packed performance it has the strength and safety features of all the Visions and is a real cross season choice for those pushing it.

Built to perform, this is another exceptional all round model.

**Features:** Ziplock waist and leg loops, Re-shaped for women, 'Batwing Belt' shaping, Four gear loops (XS 2), 25kN Belay loop, Single point drop seat, Mesh carry bag, Alloy buckles, Colour: Lime / Silver

### NEW VISION SUPER KID'S ZIPLOCK

These super cool new rigs aim to make sure that our kids don't start at a disadvantage with a harness that feels like a torture device but can enjoy their first (or later) forays outdoor and inside.

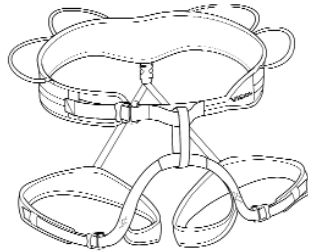

So with girls and boys models - both appropriately scaled - you can rely on Wild Country quality and safety to provide the perfect start so your juniors can concentrate on scaling their mini mountains. Simple things like Ziplock buckles on legs and waist mean the buckles won't be left undone while two gear loops allow seconding or first leads to be undertaken.

A real harness for those real climbers who just happen to be in slimmer, smaller shapes. Lucky them!!

**Features:** Girls and Boys models, Ziplock buckles legs and waist, batwing belt, 30kN belay loop, Single point drop seat, Mesh carry bag, Colours: Orange / Silver or Purple / Silver. Use from approx age 10 - read instructions.

### CLASSIC ZIPLOCK HARNESS

A proven design, the Wild country Classic is a starter, gym or group harness that's hard to better. Its 'over the top' tie in point allows quick and easy clipping in and unclipping either using a traditional knot or a screwgate and its amazingly wide adjustability fits almost anyone. The Ziplock buckles on the legs and waist are easy to adjust and give a 'never-undone' security that breeds confidence.

**Features:** Enormous fit range, High visibility 'over the top' tie in, Ziplock buckles, Single gear rack.

### ZEROS

A miniature miracle of modern engineering, and still getting great reviews as well as gasps of astonishment, the range and usefulness of Zeros has to be seen and experienced to be believed.

From the diminutive Zero 1 – still the smallest cam ever made – upwards, the many unique features of Zeros combine with their unrivalled flexibility to make sure they are a keystone of Wild Country's range. The longer stem of sizes 3-6 makes them easier to place and remove than many rival cams and the large trigger ensures even gloved use while aiding is no problem.

**Features:** Direct Loading Axle, Camstops, Guided Triggers, Flexistem, Original 13.75 Cam angle, Light 10mm Dyn Extendable Sling.

### TECHNICAL FRIENDS - BONUS FREE BINER IN 2009/10\*

'If it ain't broke... don't fix it!' – While plenty of companies are rushing out copies, the original Friends remain a true 'tried and tested' product. Tweaked and refined over 30 years the current incarnations are still the backbone of the majority of climbers' racks today. By their nature light, ergonomic and intuitive to use the classic Technical Friend range has many attributes that are hard to match, including: Unrivalled coverage from 10mm to 100mm; Proven 13.75 holding power (even in flares), and a placement stability that simply oozes confidence.

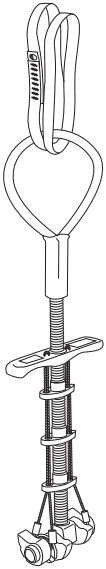

So when you're out there looking it's great to know there's still a benchmark product with enough crag time logged that you can rely on them, every time and at all times. And with a free racking biner with each one you know that they give great value too.

\*All individual units sold up to size 4. Sets available 0.5, 1.5, 2.5 / 1, 2, 3.

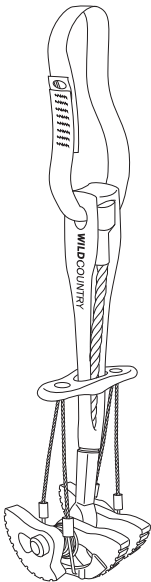

**Features:** Original 13.75 camming angle, Anodised Colour Coding, Light Single NiCroMo Axle, Camstops, Zytel Nylon Sheath, 12mm Dyneema sling.

### ROCKS

Wild Country were the inventors of the 'Rock', the first curved nut, and the nut which revolutionised protection. So it's certainly worth noting when we say that the current fully featured Rocks range are the new benchmark units for the modern climber.

Although not light years from the original design the 21st century rocks are lighter, while still being solid and durable and have been refined for all seasons and all circumstances. These latest Rocks, due to our recently introduced big rocks, have the biggest range of any units available, remain one of the lightest nuts per size and have an enviable list of features.

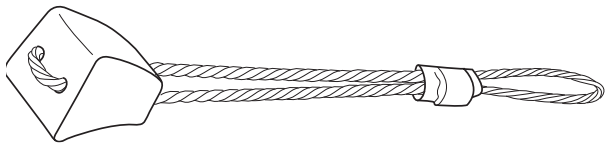

So, from colour co-ordination to side tapers and top quality materials our quality standards and 3 Sigma testing mean that the worlds original curved nuts, Rocks, easily keep their place in the pantheon of 'must-have' gear.

Sets available 1-8, 9-14.

**Features:** Tapered sides, Anodised Colour Coding, Lighter Thinner Sidewalls, Fourteen Sizes.

### SUPERLIGHT ROCKS

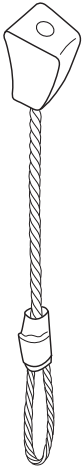

Superlights are now known as essential kit – and maybe should be called *Superlative Rocks* due to the plaudits heaped on them from reviewers from every corner of the globe. Slim, light, flexible, and supremely fiddleable in tight spots, these single wired beauties seem to push all the buttons as the perfect tool to complete any serious rack.

In six sizes, curved and with tapered sides, they give any rack more bite for very, very little weight. Set available 1-6.

**Features:** 7075 alloy for easier removal, Single wire, colour coded anodising, Tapered sides.

### MINI ROCKS

Small and really useful in extremis, the Mini Rocks combine a neat, precise shape with a positive fit. Flat sided due to their size, they are engineered to make the most out of very little metal. Neat touches include a 'sunken-wire' head which provides protection and strength where the wire's at its weakest and fine rumbling which gives a super smooth finish. Four sizes all below a Rock 1 wide give a range of placement options.

### VC PRO 2

With an easy, organic shape and intuitive feel the VC Pro 2 has been a success since its launch and is recognised as one of the leaders on thin ropes. And it has two great attributes to make it so: Firstly it has a smooth finish for fatter cords with a flattened out bottom, which keeps the biner a bit further away and decreases grab. Secondly to give even more bite on ever-decreasing diameter skinny ropes, the V slots are deep, accepting even the thinnest ropes to give a firmer grip.

A great device, for indoor or out, that should stay at the top of the heap for a while yet. Set with Synergy Lite screwgate available.

### ROCKCENTRICS

A eureka moment and the Rockcentric was born. Combining the best ideas behind the clunky old hexentric with modern shaping and materials might not seem like genius but ask the hordes of climbers who've been snapping them up since day one and they'd probably disagree. Brilliantly light, with a range of placement options that make them so easy to use and a flexible dyneema sling that helps keep 'em firmly wedged once placed. Set 3-7 available.

Features: 14kn Dyneema sling, 4 Placement options, Side tapers, Lightweight, Great for winter.

PRODUCT	PRODUCT CODE	COLOUR	LONG EDGE WIDTH mm	DEPTH mm	WEIGHT gm	WEIGHT oz	STRENGTH KN	CE NORM

### VC – VARIABLE CONTROLLER

With slightly widened slots for give extra performance on single ropes the VC is a less specialised tool to complement the arrival of the VC Pro 2. This gives it an all round appeal and means it works better for sports and gyms as well as still being a reliable partner for traditional double rope technique and abseiling. Set with Synergy HMS Screwgate available.

## BELAY / ASCENT / DESCENT

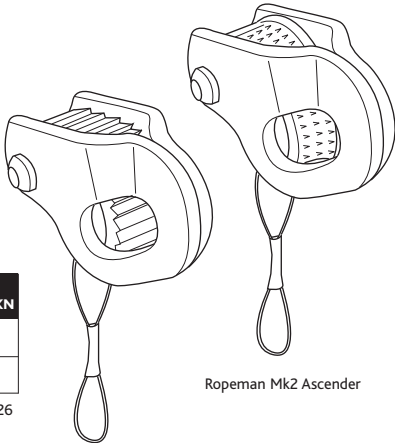

### ROPEMAN 1 & 2

Best sellers from day one, the Ropeman 1 and 2 have become the ubiquitous tools for a wide range of mountaineering and cragging activities. From prussiking to pulleys and mouflage the list of uses and adaptations for these small but perfectly formed devices goes on and on.

Note: The Ropeman 1 features an alloy cam and is for 10 to 11mm ropes only while the Ropeman II has a more refined stainless steel cam which operates better on thinner ropes down to 8.5mm.

### SRC – SINGLE ROPE CONTROLLER

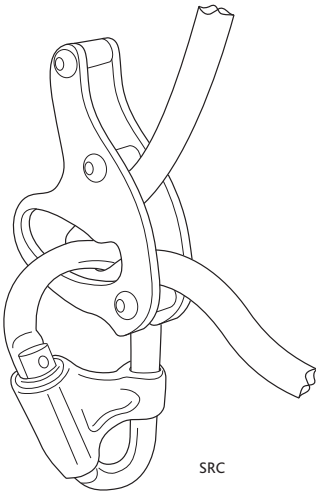

The Single Rope Controller is Wild Country's super safe belay device which works like an 'auto-lock' but with a very important difference – it has a much more dynamic action leading to a lower impact force and a much softer fall.

The key here is that this puts less strain on the device, the belayer and, most of all, the falling climber. Simple to use and very fast paying out in a redpoint situation it's also a great device for safe starting out – top roping and for first leads.

Refined and easy to use and with stainless steel pins for long life in group or centre situations.

## SLINGS & TAPES

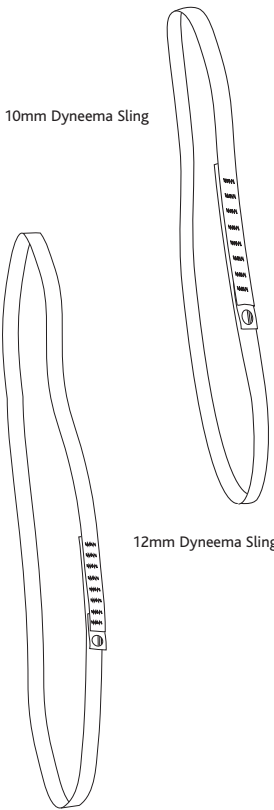

### 10mm DYNEEMA

The amazingly light and brilliantly flexible 10mm Dyneema slings are now our best selling width – and provide the 'cutting edge' to any rack where weight is at premium. Weighing in at only 16gms a metre but still with 22kn 3 Sigma rated breaking strain it's obvious we're looking at the lightweight champion.

PRODUCT	PRODUCT CODE	COLOUR	LENGTH cm/inch	SLING	STRENGTH KN	WEIGHT gm	WEIGHT oz

Syncro Gear Sling	19SYNSLINGLSH	Various	One size	189	6.17

Syncro Gear Sling

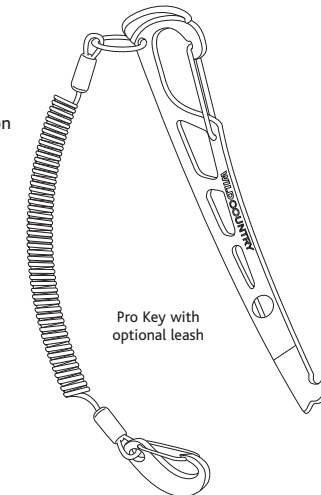

### PRO-KEY

In stainless steel, tough, durable and very practical the smartly designed Pro-Key has been a big hit. A wire gate means a direct clip to the harness, while a folded top gives a bigger surface area to allow a firmer (less painful) push with the palm and large holes keep the weight down. And finally, the tip of the Pro-Key is precision ground to give it the most accurate nose for removal even in tiny slots.

The Pro Key can also be bought with an optional, removable, extendable, leash and clip which means you're safe from dropping it in tight spots.

Colour: Silver.

Product Codes: 14PROKEY – 14PROKEYLEASH.

Pro Key with optional leash

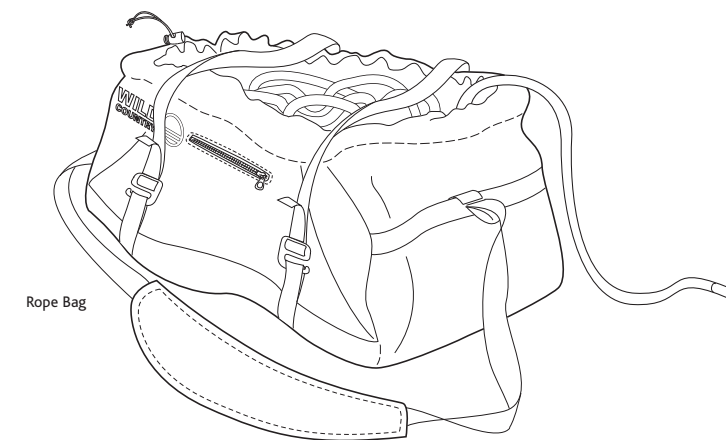

### WC ROPE BAG

A classic design, with a roll out tarp and strong easy adjust aluminium buckles, internal tie point and a padded over the shoulder carry loop. Also comes with an internal side foam pad that protects the back or hips while carrying.

Colour: Black, Size: 35 litres, Tarp Size: 135 x 105cm.

Weight: 760gms/26.81oz.

Product Code: 19WCROPE.

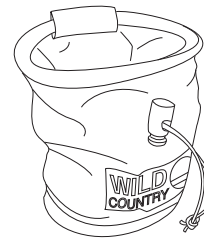

Rope Bag

## ACCESSORIES

### PETIT BLOC CHALK BAG

A crackin' little bag with a simple round shape that fits most hands. The Petit Bloc is a mid size all rounder that's been a best seller for years. Fits chalk ball or loose chalk. Comes in a variety of colours and materials. Bonus: All Wild Country chalk bags come with a free chalk bag belt.

Product Code: 29CBPETIT.

Petit Bloc Chalk Bag

### GRAND ILLUSION CHALK BAG

This bag has a zip pouch for your goodies on the front and a toothbrush pocket on the side as well as a finger friendly teardrop shape for easy dipping; making it a stylish replacement for the Grand Bloc. Bonus: All Wild Country chalk bags come with a free chalk bag belt.

Product Code: 29CBILLUSION.

Grand Illusion Chalk Bag

### NEW BOULDER BAG

With the success of our Boulder Set we are now offering our big bright and bombproof Boulder bag on its own. Flat bottomed, with loads of space and pockets galore to accompany you on board, gym or at the boulders... just remember to fill with Pure Chalk for best results...

Product Code: 29CBBLDR.

Boulder Bag

### CHALK BAG BELT

A neat, 20mm webbing belt that fits the Wild Country, and most other chalk bags perfectly. Simple adjustment through a fastex buckle and a great price.

Product Code: 29CBB.

Chalk Bag Belt

### BOULDER SET

It's bargain time... if you're just hitting the long road to bouldering enlightenment then we think you'll appreciate this perfectly formed set of gear which includes:

**Boulder Bag** – our new large flat bottomed chalk sac.

**Boulder Brush** – A thin neat double ended nylon brush.

**Pure Chalk 350gram Bag** – our big bulging re-sealable bag.

**Tape** – a bonus item of thin, sticky, finger protecting stuff.

Product Code: 29CBCHKBLDRSET.

Boulder set: includes Bag, Brush, Chalk & Tape

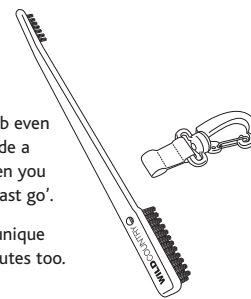

### BOULDER BRUSH

A thin, tough and neat double ended brush. Designed to scrub even the smallest of edges to provide a clean, true, smeg free pull when you really need it on that crucial 'last go'.

Brush comes with a free and unique harness clip for carrying on routes too.

Weight 15grams.

Product Code: 19BLDRBRUSH.

Boulder Brush with bonus clip

WILD  
COUNTRY

## CHALK

### WILD COUNTRY PURE CHALK

There's more to chalk than meets the eye: and with the blending, baking, crushing and forming involved sometimes it can seem more like distilling whisky than making a simple white powder. But remembering that the best whisky is usually the purest we figured that Wild Country Chalk would be better that way too... Pure... Hence the name.

So with no additives, drying agents or other nasties to ruin your skin or the rock Pure Chalk will keep your hands clean and dry and thus keeping your head clearer in even the hottest spots...

BMC  
2%  
ACCESS

BMC Bonus – As a bonus you can help keep our climbing areas in better shape as 2% of all the turnover on all chalk sold goes to the British Mountaineering Council to help the Crag Care Fund keep our areas open, clean and accessible.

### PURE CHALK BALL – 60GRAMS

Sized to slip unobtrusively into your powder pouch our chalk ball is a super tough one, and is filled with 60 grams of our exclusive Pure Chalk formula. The stretched material wrapper lets out enough chalk each time to coat the fingers well, but without losing too much powder, and should last a good long time. And as a bonus it's the perfect size for throwing at mickey taking mates – after you've crashed and burned on another send – without causing them too much damage!!!

Weight 70grams.

Product Code: 29CBCHKBALL.

Pure Chalk Ball  
60gram

### PURE CHALK 350GRAM PACK

Blended, baked, formed, then crushed to our specifications this is the best value bag on the market with it's mega sized 350grams meaning it should last through a whole bunch of tries on even the most hardcore days out.

Our bag's re-sealable so it don't spill and mess your stuff and recyclable so it doesn't mess anyone else's either.

Product Code: 29CBCHKPACK.

Pure Chalk  
350gram pack

### PURE CHALK BLOCK – 58GRAMS

The original chalk delivery system is now available with 58grams of Wild Country Pure Chalk. Buying a block and breaking it lets you decide how you use it... big chunks, little chunks or smooth balls.

Available as single block or an 8 block box.

Product Code: Box 29CBCHKBOX.

Pure Chalk Block 58grams

SETS

RED CHILI

SETS

With their increased range Wild Country packaged sets have proved increasingly popular. Our polypropylene gives stronger packaging, a more distinctive POS environment and better branding. Offered at an average 5% discount the sets are better value for money than individual units: this should mean more sales, more satisfied customers and a higher take per sale.

All sets are now sold on 500 mic recyclable Polyprop header cards.

## RED CHILI

### MATADOR VCR

The Matador is Red Chili's hottest shoe, capturing perfectly the essence of modern sports climbing and bouldering in an authentic precision package.

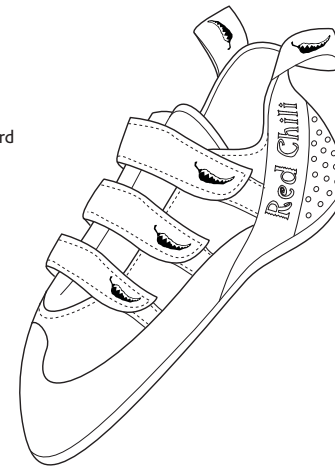

Our 'perfect shoe', the Matador was designed for, and refined by, some of Europe's top climbers - including the awesome Andreas Bindhammer.

Technically, a super-tensioned, toe down, lo-stretch synthetic upper forces the foot forward giving peerless purchase even at extreme angles. At the same time triple VCR strapping keeps the foot perfectly anchored – while allowing quick and easy adjustment – and underfoot a sensitive midsole gives amazing feedback without sacrificing power. Add in extended, profiled arch rubber for awesome scummin', a great heel cup plus bonus toe rubber and here's a shoe with more traction than ever before.

A design masterpiece, the Matador is Red Chili's most advanced shoe and the most precise and powerful VCR shoe around.

- Toe down design for power.
- New Synthetic upper for lower stretch.
- Triple VCR straps for control.
- Super sharp toe profile.
- Super cool new designer upper.
- Red Chili 4.2 RX1 rubber.
- Twin pull on tabs.
- Sizes UK 3 to 12 / US 4 to 13.
- Colour: Black / Red

Product Codes: 50RCMTDVCR03 – 50RCMTDVCR12.

Matador VCR

### NEW CORONA VCR

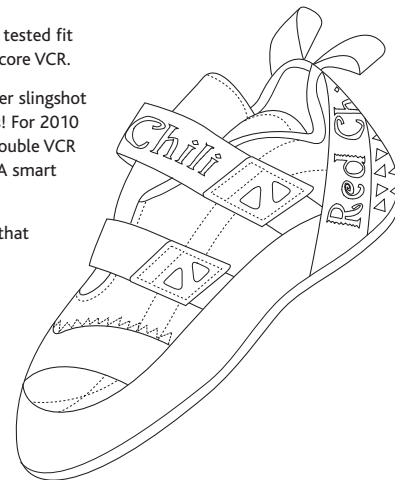

Sharpened up, more stylish and with a touch more bite, the Corona's tried and tested fit and function are only improved by a slick re-make for this distinctive and hardcore VCR.

Performance is the key to this shoe and featuring a sharp low-profile toe, a killer slingshot heel and bonus toe rubber for super-tech hooking, it's obvious that it performs! For 2010 the midsole is tweaked to give even more sensitivity and feedback while our double VCR straps add in easy 'on and offs' between boulder sends, redpoints, or on belay. A smart new graphic simply enhances this great package.

A proven product, the Corona VCR wears with a fit, function and performance that really works.

- VCR straps for easy adjustment.
- Sharp asymmetric low profile toe.
- Bonus rubber over the toe and in the arch for added versatility.
- Cool new black / white colourway.
- Twin rear pull on tabs.
- Super sticky 4.2mm RX1 Red Chili rubber.
- Sizes UK 3 to 12 / US 4 to 13.
- Colour: White / Black

Product Codes: 50CORVCR03 – 50CORVCR12

Corona VCR

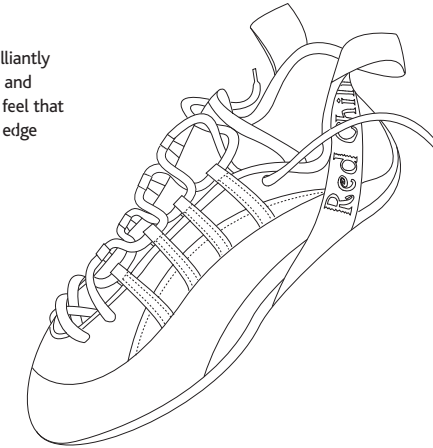

### MESCALITO

A versatile, performance orientated shoe the Mescalito is designed to perform brilliantly across the widest spectrum of styles. A semi-asymmetric profile supports the toe and combines perfectly with a sculpted, speed-laced upper, to provide a wrap-around feel that fits more feet more easily. Laterally firm but with a responsive flex this shoe will edge with the best but is equally at home smearing on granite or grit.

Re-worked for 2009 the Mescalito has been sharpened at the toe to give more pocket power, while the upper has been reinforced to give a real precision alternative across a range of disciplines.

- Easy and fast fitting speed laced upper.
- Low profile semi-asymmetric toe.
- New 'ultra-cup' heel.
- Graduated midsole – firm but responsive.
- Twin rear pull on tabs.
- Super sticky 4.2mm RX1 Red Chili rubber.
- Sizes UK 3 to 12 / US 4 to 13.
- Colour: Orange / Black

Product Codes: 50RCM03 – 50RCM12.

Mescalito

### IMPACT ZONE HEEL

Impact Zone – Red Chili's exclusive and innovative Impact Zone is a subtle, bonus layer of impact absorbing foam hidden in the heel of the shoe to give a cushioned landing. So for bouldering indoors & out or just walking off the crag it's proved to be a mighty popular way of having a more comfortable day out without sacrificing performance.

### NEW SPIRIT IMPACT ZONE VCR

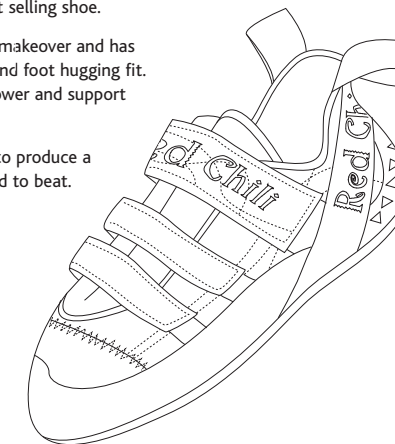

An advanced all rounder, for the more technical climber or boulderer, the Spirit Impact Zone VCR has been re-worked - adding to the style, substance and versatility of this best selling shoe.

Subtly improved and enhanced internally, the VCR also gets a stylish external makeover and has a big 'wow' factor in its new format. Technically, it keeps a tight, focused toe and foot hugging fit. And with improved triple VCR strapping as well as a firm midsole it has the power and support for bouldering and a wide variety of routes.

A thoroughbred technical shoe with a strong shelf appeal, the VCR continues to produce a pedigree performance across such a wide range of climbing styles that it's hard to beat.

- Impact Zone heel for comfort and performance.
- Triple VCR straps for easy and adaptable control.
- New sharper, lower toe profiling.
- Stylish modern design.
- Twin rear pull on tabs.
- Super sticky 4.2mm RX1 Red Chili rubber.
- Sizes UK 3 to 12 / US 4 to 13.
- Colour: White / Red / Black

Product Codes: 50SPVIZ03 – 50SPVIZ12

Spirit Impact Zone VCR

## RED CHILI

## RED CHILI

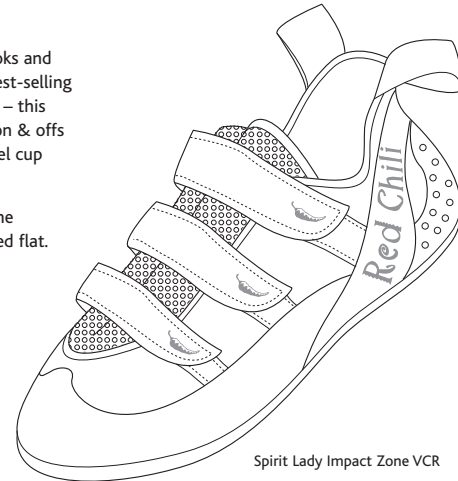

## SPIRIT LADY IMPACT ZONE VCR

Stylish, sporty and technical, Red Chili first women's specific shoe looks and feels the business. With a neat, light, trimmed down version of the best-selling Spirit last as its base and adapted to fit the female foot shape better – this looks a real winner. On top our triple velcro upper is great for quick on & offs and adjusts well for a precision fit – even on slim feet – while the heel cup has a refined fit that hooks great.

A precision entry into the women's market that's sharp enough for the hardcore if worn tight but relaxed enough to take first steps in if fitted flat.

- Specifically designed for a women's foot.
- Impact Zone heel for comfort with performance.
- Triple VCR straps for easy adaptable control.
- Cool colorway.
- Neat sharp low profile toe.
- Red Chili 4.2mm RX1 rubber.
- Sizes UK 2 to 8 / US 3 to 9.
- Colour: Yellow/Blue

Product Codes: 50RCSPVIZL02 – 50RCSPVIZL08

Spirit Lady Impact Zone VCR

## NEW SPIRIT

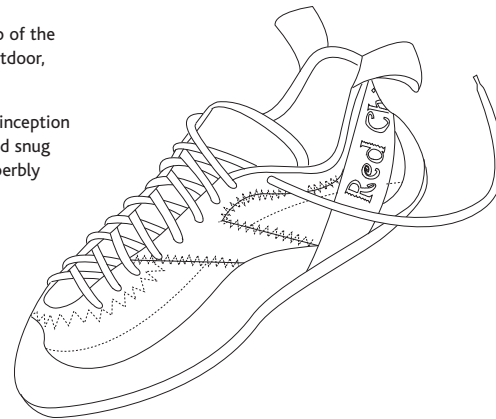

A certified classic, the Spirit is a neat, light shoe that puts fit at the top of the agenda, climbing beautifully across a wide spectrum of asks: indoor, outdoor, boulder, trad and sport.

The fastest selling shoe Red Chili ever made and ever present since its inception 5 years ago it has precise, glove like fit, low profile toe, defined arch and snug heel. And with long 'to the toe' lacing the Spirit just wraps the foot superbly giving a feel and feedback that's hard to beat.

Subtle, stylish and such a great fit, the Spirit continues to inspire good climbing as it has done from day one.

- New sharper, lower toe profiling.
- Re-worked heel – slimmer and tighter.
- New midsole material for more touch and feel.
- Twin rear pull on tabs.
- Super sticky 4.2mm RX1 Red Chili rubber.
- Sizes UK 2 to 12 / US 3 to 13.
- Colour: White / Blue

Product Codes: 50SP03 – 50SP12

Spirit

## NEW URBAN CLIMBER

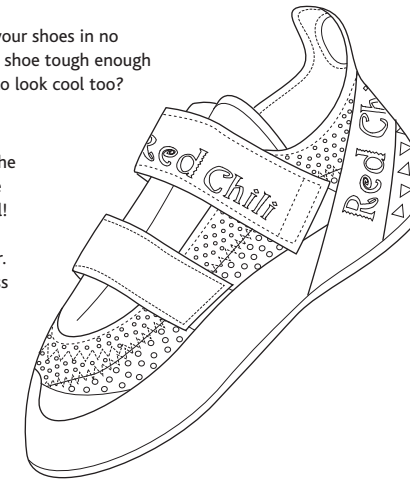

Happy grinding out the vertical (kilo)metres but sick of wearing out your shoes in no time at all? Is the rock gym hotter than the sauna next door? Want a shoe tough enough to go the distance that climbs better than a lumberjack's boot? Got to look cool too?

You need the Urban Climber...

The first Chili shoe to aim indoors the UC sports a burly build, seals the deal with a double toe rand to reinforce the most valuable workspace and adds perforated leather to let off steam(!) giving the sole less roll! The styling new look and killer fit are topped off with cool, core, Chili features like wide twin VCR straps, true slingshot heel and RX1 rubber. Technical enough to send hard while taking the punishment of endless training laps the UC's for you, the hardcore inside dweller, the winter warrior, AKA the Urban Climber.

- Perforated leather for breathability.
- Thickened rand at toe.
- Double VCR straps.
- 5mm Red Chili RX1 rubber.
- Cool stylish looks.
- 'One-pull' loop.
- Slingshot heel.
- Sizes UK 3 to 12 / US 4 to 13.
- Colour: Red / Black

Product Codes: 50URBVCR03 – 50URBVCR12

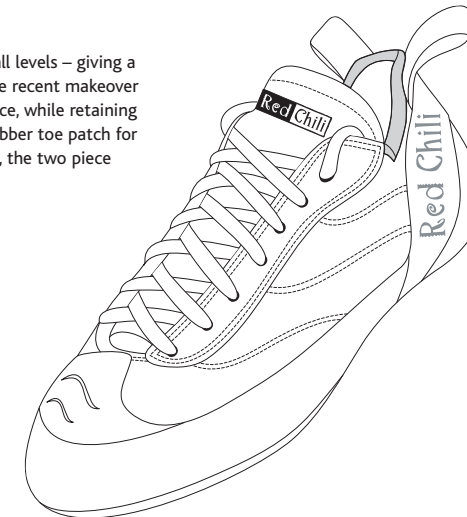

Urban Climber

## SAUSALITO

The Sausalito is a great shoe and an excellent shoe for climbers of all levels – giving a stiff edge for those pushing it and a solid platform for beginners. The recent makeover has given the shoe a wider appeal and meant even more performance, while retaining the famous comfort and fit. Technical changes included a flexible rubber toe patch for extra support, longevity and added performance for crack-fans. Also, the two piece heel works better and wraps the heel for a high performance fit.

- Forgiving centre-asymmetric toe shape.
- Medium width, low volume last.
- New toe patch for longevity and performance.
- Fully lined to increase durability and wick perspiration.
- Lacing adapts to max no. of foot shapes.
- Super sticky new 5mm Red Chili 'RX 1' rubber.
- New two piece 'slingshot' heel for best fit.
- Graduated, supportive midsole.
- Twin pull on tabs.
- Size UK 3-15 / US 4-16 inc half sizes.
- Colour: Red

Product Codes: 50RCSR03 – 50RCSR15.

Sausalito

## RED CHILI

## RED CHILI

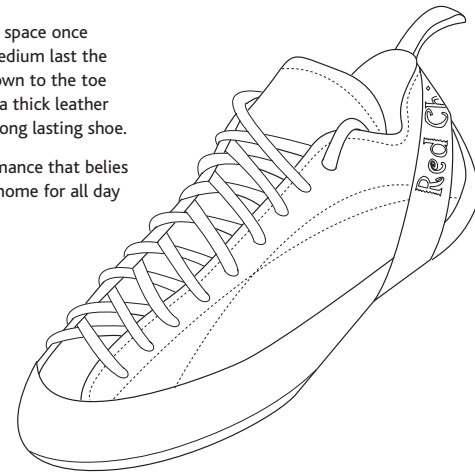

**NEW DURANGO**

A great value design, this is a simple starter shoe that fills the space once occupied by the souped up Sausalito. With a broad toe and medium last the Durango will suit a variety of foot shapes and longer lacing down to the toe means it adjusts easily creating a snug fit. Simply styled with a thick leather upper and 5mm sole, it has a supportive feel to make a solid long lasting shoe.

The Durango is confidence inspiring all-rounder with a performance that belies its remarkable comfort. A great starter boot that's equally at home for all day outdoor or indoor use.

- Full length toe lacing for maximum adjustment.
- Easy fit, broad, centre asymmetric last.
- Relaxed full rubber heel for comfortable support.
- Twin rear pull on tabs.
- Super sticky long lasting 5mm RX1 Red Chili rubber.
- Sizes UK 3 to 12 / US 4 to 13.
- Colour: Blue

Product Codes: 50DUR03 – 50DUR12

Durango

**NEW DURANGO VCR**

Cool, clean and very adaptable the Durango VCR is a great all rounder and by using a VCR entry it gives an excellent alternative to its lace up twin.

Totally revamped, it features wider more supportive VCR straps, which, clamping the foot better allow the firm platform below to be exploited to the max over a wide variety of styles. Like the lace up it has a broader toe and medium last accepting a wide range of feet yet still retains an edge for more delicate and precise action.

A durable and solid all rounder the VCR is at home anywhere you are and makes a perfect shoe for moving through the grades indoors, outdoors or bouldering.

- Double VCR straps for easy adaptable control.
- Easy all round last shape.
- Perfect starter shoe.
- Red Chili 5mm RX1 rubber.
- Sizes UK 3-12 US 4-13.

Durango VCR

**SPLASHDOWN BOULDER MAT**

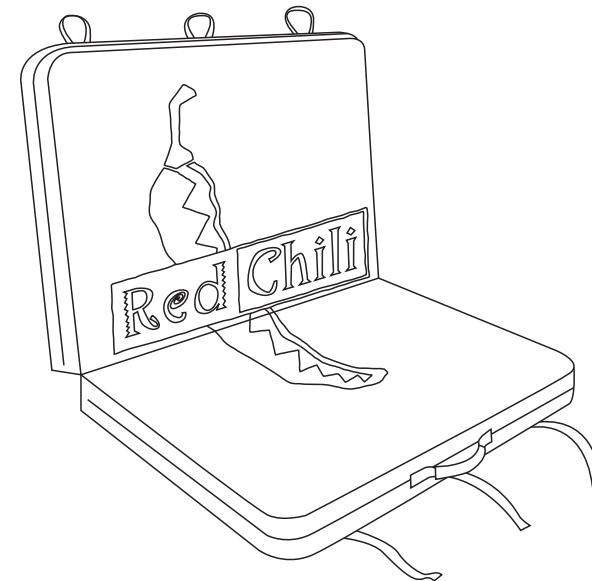

Bigger, deeper, wider and more comfortable than most... the inimitably styled Red Chili mat is one of the beefiest on the market and has carved itself a niche with a combination of performance and price that's hard to beat. Re-assuringly thick, it has up to 1/3 more dual density foam making for a soft landing on even the biggest drops. And as ever with Chili there's a distinctive style to our gear and so our big Chili logo print makes it just that bit more 'standout' in the crowded world of boulder mats.

Features: Dual density foam, New easy-clip metal buckles, Removable 'rucsac' style harness.

Size: 120cm x 90cm x 12cm. Weight 4.5 kg.

Super 10 Quickdraw Straight / Bent Gate

SUPER 10 / SUPER 12MM MIDI HMS / SUPER 12MM HMS / SUPER 11 OSD

A compact and great value range the Clog screwgates offer a wide choice of functionality over the four choices:

Super 10 screw – Small, neat and perfect to carry on slings and for running belays.

Super 12mm Midi HMS – Strong and compact this is a great all rounder for belaying and setting belays too..

Super 12mm HMS – One of our longest serving biners the 12mm HMS is a stalwart of centres and indeed anywhere that requires intense use.

Super 11mm OSD – The strongest karabiner on offer with the 'offset D' shape giving more than enough strength for all applications.

## HARNESSES – UK Only

### CENTRE – THREADBACK / ZIPLOCK

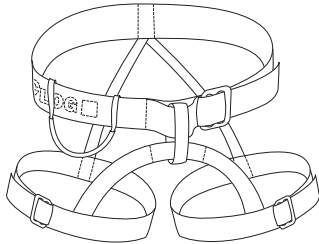

The Centre has proved extremely popular over the last few years as a basic no-frills introduction to a 'proper' tie-in climbing harness. As it's name suggests, it is ideal as a teaching or group harness especially where the emphasis is on best practice and correct climbing tie-in procedure. There are now two versions of this popular model being offered. The original with 'threadback' buckles and a new model with Clog's new 'ziplock' style buckles which are always threaded and are simply pulled to tighten. Comes with a single gear loop.

For 2009/10 this harness gets a distinctive Red right leg to make it easier to identify when fitting.

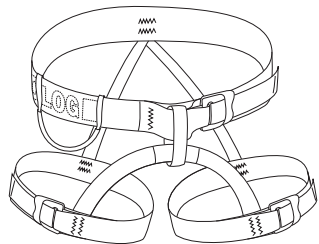

**Features:** High visibility belay loop, Colour defined leg loops, Leg loop identity labels, Huge size range per model.

PRODUCT	PRODUCT CODE	SIZE	WAIST cm	WAIST inch	LEGS cm	LEGS inch	WEIGHT gm	WEIGHT oz
Centre Threadback	23RCNTTB2R	Regular	16-46	40-117	16-34	40-86	12.8	367

Centre Ziplock	23RCNTZL2R	Regular	16-46	40-117	16-34	40-86	12.8	367
Centre Ziplock	23RCNTTZL4XL	XL	16-56	40-142	16-36	40-92	14.2	408

All harnesses are 3 Sigma Rated and CE to prEN12277, UIAA 105

Centre Threadback

Centre Ziplock

### CLASSIC – THREADBACK / ZIPLOCK

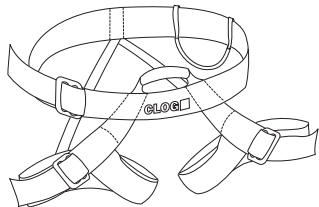

Like the Centre the Classic is designed as a budget introductory harness with 44mm webbing throughout and large threadback buckles. An 'over-the-top' clip in point means this is a great group or centre product for quick changeovers using a screwgate while its 'happy' style means it is adaptable as a winter walking/mountaineering product. There are now two versions of this popular model being offered. The original with 'threadback' buckles and a new model with Clog's new 'ziplock' style buckles which are always threaded and are simply pulled to tighten. Both models also come with a single gear loop.

For 2009/10 this harness gets a distinctive Red right leg to make it easier to identify when fitting.

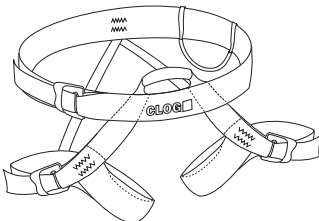

**Features:** High visibility clip in point, Leg loop identity labels, Huge size range per model, Single gear rack.

PRODUCT	PRODUCT CODE	SIZE	WAIST cm	WAIST inch	LEGS cm	LEGS inch	WEIGHT gm	WEIGHT oz

## STANDARDS

### 3 $\sigma$ THREE SIGMA

The Three Sigma Rating system is a method of Statistical Quality Control (SQC) which we use to describe, analyse, and control the rated strengths of our products. For each batch produced, a statistically representative sample is taken and tested to destruction in accordance with the relevant European Standard for that product and/or our own approved internal Quality Assurance Procedures.

These procedures are an integral part of our Quality Assurance System. From the data obtained from destruction testing, the average (or mean) and sample standard deviation (which is a measure of variance based upon the results obtained) is calculated.  $3\sigma$  is three times the sample standard deviation. When  $3\sigma$  is deducted from the mean result obtained, we can predict the spread of results which would be obtained if we were to destroy the entire batch (which is why we sample only!). We monitor this data closely from batch to batch to ensure that the rated strength (as marked on the product) is always less than the mean minus three times the sample standard deviation. This ensures that the minimum breaking strength for all products is consistently higher than the rated strength as marked on the product.

### ISO9001:2000 QUALITY ASSURED FIRM

Wild Country is registered to International Standard ISO 9001:2000 (Certificate No. C/7545.Q/2678). This is the internationally-accepted model for Quality Assurance Management Systems, which has been adopted in over 150 countries worldwide.

### UIAA SAFETY LABEL

The UIAA Safety Label can be awarded for mountaineering and climbing equipment that meets the requirements of the relevant UIAA standard. In order to prevent unnecessary multiplicity of standards, the UIAA standards are based on the European standards (EN standards, also called CEN standards). The EN standards, in turn, are based on the former UIAA standards, which were the first standards for mountaineering and climbing equipment in the world. The present UIAA standards may have higher and/or additional requirements above those in the EN standards.

### CE CERTIFICATION

Where required by law (European Union Directive 89/686/EEC – for Personal Protective Equipment), Wild Country products are type examined, tested and certified.

The organisation responsible for our ISO 9001 Quality System and CE marking is Notified Body No. 0120 SGS UK Ltd (202b Worle Parkway, Weston Super Mare, BS22 6WA).

### WARNING

In accordance with EU Directive 89/686/EC Wild Country Ltd. supplies detailed instructions with all its products and recommends that the user reads and understands these instructions before use.

If you are in doubt, require further advice or would like a copy of the instructions for any Wild Country product, you should contact us at the address printed in this Work Book. It is the user's responsibility at all times to ensure that he or she understands the correct and safe use of any equipment supplied by Wild Country Ltd., uses it only for the purposes for which it is designed and practises all proper safety procedures. The manufacturer or supplier will not accept any responsibility for damage, injury or death resulting from misuse.

### GUARANTEES

Wild Country guarantees all of its products from new against defects in workmanship or materials, unless the product has been worn out, misused, or abused, as determined by our examination. Wild Country will repair or replace any product as appropriate.

This guarantee is in addition to your statutory rights which remain unaffected. Wild Country Ltd. reserves the right to modify without notice the design and specifications of products described in this workbook.

All weights, dimensions & sizing specifications where quoted are nominal.
